Coros Pace GPS Multisport Smartwatch, 42mm, Dark Blue

The Coros Pace GPS multisport smartwatch with wrist-based heart rate monitor, various training modes and other functions is equipped with a power-saving central core that lasts up to 30 days in regular mode and up to 30 hours in GPS mode.

High-performance, motivating and versatile

Track your training data like speed, distance, cadence and stride length in real time. GPS, GLONASS and BDS work together to locate your position even in the event of outdoor interference. At the same time, you can receive and control phone notifications, including calls, text messages, emails and a wide range of social media applications.
