### **Kärcher WV 6 Plus Cordless Window Vac, Yellow/Black**

Streak-free windows have never been so quick, so easy and so quiet: the WV 6 Plus is an even more effective upgrade of Kärcher's innovative window cleaner. The electronic vacuum function and a new lip technology that makes the window cleaner much easier to use at floor level provide a clear view with greater flexibility. The window vacuum's low weight makes it comfortable to use even on large window surfaces. A single charge of its powerful battery (5,700mAh) is enough for 100 minutes or 300 square metres of enjoyable window cleaning without interruption.

More efficiency, more time saved

Tried and tested brand quality for more convenient housework: the spray bottle with microfibre pad and especially efficient window cleaning detergent clean windows effectively with next to no effort. The window vacuum guarantees a streak-free result on all smooth surfaces and is completely hygienic. The LED display on the device shows exactly how much runtime is left and allows window cleaning activities to be planned to the minute.

**Details**

- \* Size (W x H x D): 28 x 31 x 12.6cm
- \* Weight: 800g
- \* Material: plastic
